## DEDICATED TO IMPROVING HEALTH WORLDWIDE

### Radox Biochip

### The Gold Standard In Health Diagnostics

---

The Radox Biochip conducts up to 350 different health tests simultaneously, ensuring patients across the globe get the most accurate diagnosis as soon as possible. With further plans to expand and enhance the Biochip even further – with capabilities to run over 1024 tests on a single blood sample – our technology is set to revolutionise the future of healthcare.
